Dr. Miles' Nervine Restores Health.

UNCLE EZEKIEL OBEAR, assessor and tax collector, Beverly, Mass., who has passed the 80th life mile stone, says: "Dr. Miles' Restorative Nervine has done a great deal of good. I suffered for years from sleeplessness and nervous heart trouble. Would feel weary and need up in the morning, had no ambition and my work seemed a burden. A friend recommended Dr. Miles' Nervine, and I purchased a bottle under protest as I had tried so many remedies unsuccessfully. I thought it no use. But it gave me restful sleep, a good appetite and restored me to energetic health. It is a grand good medicine, and I will gladly write anyone inquiring, full particulars of my satisfactory experience."

Dr. Miles' Restorative Nervine is sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

## ENROUTE TO MANILA

Five Transports Now on the High Seas With Troops For Otis.

## THREE SPANISH CRUISERS

Captured at the Battle of Manila Now at Hong-Kong Reported in a Good Condition—Indianaapolis Designated as a Reserve City by the Controller of the Treasury.

Washington, May 12.—There are five troopships now on the Pacific enroute to Manila with reinforcements and stores for General Otis' army.

The Warren left San Francisco, April 20, and is due at Manila within the next 10 days. She carried eight batteries of the Sixth artillery, including 80 officers and 912 men, and also 240 recruits.

The Newport also sailed from San Francisco on the 20th ult. and is due at Manila in a few days. She stopped at Honolulu. She carried two light batteries, including eight officers and 220 men, and also 15 officers and 216 men of the marine corps.

The Morgan City left San Francisco April 25 with 611 enlisted men and recruits.

The Senator and the Ohio left San Francisco April 28, carrying between them the entire Thirteenth regiment numbering 30 officers and 1,329 men. All these vessels will stop at Honolulu enroute and probably will occupy 30 days in making the trip, that being the average time.

The only vessel yet to sail, for which complete arrangements have been made, is the Sherman. She is booked to carry the Sixth infantry and to start from San Francisco on the 22nd inst. The transports Grant and Sheridan will aid in carrying troops between San Francisco and Manila. The Grant, which has been detained at San Francisco in quarantine, will follow the Sherman about a week later, carrying the Sixteenth regiment of infantry.

## SPANISH CRUISERS

Captured at Manila in Fairly Good Condition.

Washington, May 12.—Admiral Hichborn, chief of the bureau of construction, has received a report from Naval Constructor Capps at Hong-Kong regarding the three captured Spanish cruisers, Isla de Cuba, Isla de Luzon and Don Juan de Austria, in which Constructor Capps states that careful examination has shown the vessels are in considerably better condition than was expected. The forecastle decks of the Cuba and Luzon are found to be in very fair condition. They are of teakwood and will not have to be renewed, recaulking being sufficient to put them in first-class condition. The hull, machinery and outfit, Mr. Capps reports, are also found to be in good state, and may not need renewal. The boilers and engines of all the vessels are in fairly good condition.

## Fairbanks Calls on Hay.

Washington, May 12.—Senator Fairbanks of Indiana, was at the state department yesterday and saw Secretary Hay for a short time regarding matters pertaining to the American-Anglo commission, of which he is chairman. He also called upon Mr. Kasson, a member of the commission. Senator Fairbanks will leave Seattle for Alaska about June 10 for the purpose of making personal investigation of the Alaskan boundary, which is one of the main questions of difference between the United States and Great Britain.

Wireless Telegraphy.  
Washington, May 12.—General Greeley has made an authoritative statement as to the progress making in the development of wireless telegraphy under the auspices of the United States signal

## THAT VITAL SPOT.

The prize fighter always aims for the vital spot in the body. When he reaches it, as Fitzsimmons did with Corbett, the other man is knocked out. To protect the vital points of the body is the first care of the fighter.

The stomach is the vital spot to be protected against

the deadly blows of that universal pugilist called consumption.

If it is permitted to get out of order—if the blood becomes full of impurities, if the system is allowed to run down—it won't be long until consumption will find the "opening" and deal its fatal blow. Protect yourself with Dr. Pierce's Golden Medical Discovery, the non-alcoholic remedy for the stomach, blood and nerves. Take it for lingering coughs, colds, bronchitis, weak and bleeding lungs. It has cured so many thousands that it will also cure you. Don't under any circumstances permit the medicine dealer to induce you to take some other remedy. There are many substitutes on the market, but none of them possess the power to cure like "Golden Medical Discovery."

"After using about five bottles of Dr. Pierce's Golden Medical Discovery my boy seems to be all right," writes Mr. J. W. Price, of Ozark, Monroe Co., Ohio. "He was very bad when I commenced to give him the 'Golden Medical Discovery.' The doctors claimed he had consumption and we doctored with them until he was past walking. It has been ten months since he stopped taking your medicine and he is still in good health."

To knock out constipation and biliousness, take Dr. Pierce's Pleasant Pellets.

corps. The important conclusion is reached by General Greeley that the wireless system is not likely to supplant the ordinary method of telegraphic communication. The results so far obtained have been uncertain.

## Papal Consistory.

Washington, May 12.—The papal delegation here has not yet been advised of the assembling of the consistory at Rome the latter part of June, as announced in press dispatches, for the purpose of creating 10 new cardinals, but this meeting has been anticipated for some time. The new cardinals will be named to fill vacancies now existing, the latest being those at Florence and Cologne.

## IOWA'S CANDIDATE

For the Speakership Says It Is the South and West Against the East.

Chicago, May 12.—Congressman D. B. Henderson, Iowa's candidate for the speakership, while passing through Chicago, on his way home from Atlantic City, said:

"I have announced that I am a candidate for Speaker Reed's place and, while it is yet an uncertain fight, I am encouraged by my prospects of success. I am not making a brass band campaign, but rather working out matters modestly. The situation may be summed up as the south and west against the east. A western man will be chosen for speaker, unless all signs fail."

In Behalf of the Spanish Bank.  
San Juan de Porto Rico, May 12.—Francisco de Acuna, secretary of state in the insular government, is going to the United States on a mission in behalf of the Spanish bank of Porto Rico, for which he wishes to secure governmental recognition in the matter of the bank's financial reorganization. He has resigned his official position.

## RICHMOND CAPITALISTS

Lexington, Ky., May 12.—The Herald today says: A deal has been consummated by which the consolidated companies, including the Belt Electric Line company, Central Electric company and Hercules Ice company of this city, are purchased by John L. Williams & Sons of Richmond, Va. The purchase price is said to be \$500,000 spot cash. The Messrs. Williams, who represent eastern capitalists, control the street railways of Richmond, Norfolk and Petersburg, Va. The new management assumes control immediately upon the formal transfer, which will be made tomorrow. They signify their intention of putting \$100,000 in improvements immediately.

CHILD HANGS ITSELF  
Strange Accident to a Three-Year-Old Boy While Playing With a Rope.

Chicago, May 12.—Three-year-old Lawrence Engen met death yesterday through a strange accident. The child was playing on a rear porch when he noticed a clothesline with a noose tied on the end hanging down from above. In playing with the rope the child in some way placed the noose about his neck and swung off the porch. In his efforts to release himself he was strangled to death before his mother could relieve him.

## Populists Ousted.

Manhattan, Kan., May 12.—In the state district court yesterday, Judge Glass sustained the action of Governor Stanley in dismissing Messrs. Limbaker and Hoffman (Populists) from the board of regents of the state agricultural college. After this decision the board of regents reorganized, Messrs. Yoe and McDowell being seated, and the Republicans thus secured five of the seven regents.

Purchased 45,000 Barrels of Whisky.

Atherton, have just closed the purchase of the Atherton stock, consisting of 45,000 barrels of whisky of various grades and ages. The money involved in the transaction alone amounts to \$700,000.

## MAY BE NEGATED

Gen. Wood's Civil Marriage Decree Not Satisfactory to Gen. Brooke.

## GENERAL GOMEZ'S STAFF

Instructed by Their Superior to Return to Their Homes, Become Angry and Accuse Him of Deserting Them—Two Havana Papers That Seem Determined to Cause Trouble.

Havana, May 12.—The civil marriage decree recently issued in the province of Santiago differs from the decree on the same subject in course of preparation at headquarters here. The military governor of Santiago, General Wood, acted without consultation with the governor general, and his decree was first heard of here through the local newspapers. Probably it will not be annulled specifically, but it will be rendered nugatory by a general paragraph in General Brooke's decree covering the entire island.

A letter has been addressed to General Wood, pointing out to him the undesirability of an attempt to handle the affairs of one province without regard to similar conditions in other provinces, and alleging the necessity of a uniform system in order to make the people homogeneous.

The decision of General Gomez to abandon Quinta de Los Molinos, the old summer residence of the captain general where he has been living, and to take a house in the city, or to live with friends here, was announced to the members of his staff yesterday who were instructed to repair to their homes. The order aroused considerable resentment among them, all accusing Gomez of deserting them and declaring that they have neither homes, work or money. The disagreement is serious, especially as the anti-Gomez papers continue to attack the settlement of the amount of the Cuban soldiers are to receive.

La Discusion and El Reconcentrado seem determined to cause trouble. The former, in a bitter editorial yesterday, declared that the payment of \$75 for an exchange of arms is merely an attempt to place the Cubans in the power of the Americans. The article, which is believed to be inspired by Manuel Sanguily, says: "These traitors have caused all the complications which have placed our country in the existing conditions, conditions that, if continued longer, will cause ferocious and bloody strife between Cubans and Americans."

The inspection by the board appointed to investigate the minimum of clothing that will answer for troops in this province took place yesterday, the first endeavor being to ascertain the amount of suitable apparel now on hand. It is not believed that for the present it is practicable to alter the existing khaki.

The commissioners of the Fifth army corps did not meet yesterday to arrange to begin the payment of the Cuban troops, as General Betancourt declined to serve. General Rojas has been requested to act in his stead.

## General Ernest's Opinion.

New York, May 12.—General Ernest, who arrived from Cuba on the Havana, said in his opinion there was no man in Cuba who "he thought qualified to be elected president. He said he did not think Gomez would ever fill that position. "Gomez is a good man, but he has many enemies. Then, again, I do not believe he is qualified to hold that office. Should the sentiment for annexation increase I believe Gomez would cause trouble. He keeps quiet as long as they dangle 'Cuba Libre' before him."

## THE NASHVILLE

Excitement at St. Louis Over the Visit of a Warship.

St. Louis, May 12.—A vast concourse of people filed the levee all yesterday, eagerly awaiting an opportunity to be ferried out to the gunboat Nashville, anchored in midstream. The privilege of transportation was granted to but one ferry company in order that the Nashville should not be overcrowded. This company's wharfboat was jammed. Suddenly a small child was pushed off the wharf into the river. Instantly a policeman followed and, as the water was shallow, the child was soon rescued. The excitement, however, caused a panic and several men were shoved over the edge of the wharf and waded out. At least 25 women fainted and were in danger of being trampled, but the police succeeded in carrying every one out of the jam. Nobody was injured. Several children fell into the water during the day, but were rescued before they got beyond their depth.

## Will Be Deported.

San Francisco, May 12.—The 12 Filipinos who arrived here on the City of Peking a week ago have been ordered deported by the special board of inquiry appointed by Immigration Commissioner North. The party consists of 10 adults and two children. Unless an appeal is taken they will probably return home on the next steamer bound for the Orient.

## Dropped Mayor Jones.

Toledo, May 12.—The Lucas county delegates to the Republican state convention have dropped Mayor Jones and practically united on Noah H. Swayne of this city as a candidate for governor. All that remains is Mr. Swayne's consent, which, it is understood, will be given. Mr. Swayne is an ardent supporter of President McKinley.

## MARINE HOSPITAL

Government Institution For Cure of Consumption To Be Opened.

Washington, May 12.—The Marine hospital recently established at Fort Stanton, N. M., under government auspices, and in which it is proposed to make a specialty of the treatment of consumption, will shortly be opened for the reception of patients. The buildings have been placed in thorough repair, and every comfort provided for those afflicted with tuberculosis. The hospital will be furnished with modern antiseptic furniture, and supplied with all modern instruments and apparatus for the scientific treatment of those suffering from the disease. The reservation where the hospital is situated contains over 10,000 acres of high plateau land, and was set apart for the use of the Marine hospital by an executive order, dated April 1, 1880. The climate is an ideal one for the treatment of all lung and throat troubles, being of moderate temperature, and at an altitude that precludes sudden changes or dampness. Outdoor exercises will be the chief reliance of the physicians in building up the constitutions of the patients. Only those being treated in the various marine hospitals will at first be admitted to the institution. These include the merchant marine, as well as the enlisted men of the army, navy and marine corps. If the plan proves successful, all employees of the government suffering from consumption will be given the benefit of treatment in the hospital. It is not proposed to throw the doors of the institution open to the general public until the hospital is thoroughly established and all government employees provided for.

## WINNIE DAVIS

Tribute to Her Memory by the Confederate Veterans.

Charleston, May 12.—The memorial to Winnie Davis was one of the features of yesterday's session of the Confederate Veterans. Colonel Bennett H. Young of Louisville paid a tribute to the memory of the "Daughter of the Confederacy."

A resolution was unanimously adopted extending the thanks of every veteran to the people of the north who so tenderly administered to Winnie Davis at the time of her illness at Narragansett Pier.

The Jefferson Davis monument committee submitted the following report: "Resolved, That it is the earnest and unanimous wish of the United Confederate Veterans that the committee shall undertake the patriotic task of building the monument to President Jefferson Davis at Richmond, feeling confident as we do that under their direction the work will soon be accomplished and we shall have in the capital city of the confederacy a memorial worthy alike of the president and of the people over whom he ruled with such fidelity and wisdom."

## SHELL FIRED

Forty-Four Years Ago at Sebastopol Explodes With Fatal Results.

Vienna, May 12.—An extraordinary accident is reported to have just occurred at Sebastopol, where dredges are at work deepening the harbor. One of the dredges raised from the bottom of the port an unexploded shell, which, on reaching the dredge, burst, destroying the machinery and instantly killing four men. The shell was one of those fired by the British fleet during the siege of Sebastopol in 1855, and the discovery that there are a large number of these unexploded English and French shells lying in the mud of the port of Sebastopol has caused, for the present, a suspension of all dredging operations there.

## PURE FOOD

Experts Testify Before the Senate Investigating Committee.

Chicago, May 12.—Before the senate committee four prominent witnesses testified yesterday as to the effect on the human stomach from the use of antiseptics and "embalming fluids" and preservatives in foods and drink. In general they were agreed that the substances used were deleterious and that in many cases they were poisonous. Either prohibit their use, they declared, or compel the manufacturers and user to brand them plainly and explicitly, so that the consumer may know exactly what is being eaten. These witnesses were Henry G. Piffard, a New York physician; Abbott C. Prescott, dean of the school of pharmacy in the University of Michigan and professor of hygienic chemistry; Victor C. Vaughan, dean of the medical faculty at Ann Arbor and professor of hygiene, and H. C. Adams, dairy and food commissioner in Wisconsin.

Dr. Piffard made specific references to foods and drugs which are being generally adulterated, sometimes with dangerous results to the consumer. Bromo seltzer, he said, is one of these. Properly, it should consist of bromide of potassium or some other substance of that kind and the ingredients of seltzer water. "But it appears," he continued, "that acetanilide is being extensively used instead. In the now famous Adams case the experts' examination of the bromo showed the presence, in addition to the acetic poison, of acetanilide, so that I believe its use is widespread."

Beer is soon to be put to a severe test by the committee. A scientific analysis of all brands offered in the open market will be made by the government experts at Washington.

The committee has purchased in Chicago many samples of butter, pepper, coffee, jellies and canned goods for analytical examination in Washington. The samples will be freed of their labels and the experts will make their investigations without knowledge of the brand or source of the articles.

## CHIEF EXECUTIVE

Giving Little Attention to Public Business at Hot Springs.

Hot Springs, Va., May 12.—President McKinley ventured from his apartments and the porches on each side of them only twice yesterday, except for his bath. Each time he went for a short walk with Secretary Gage about the grounds. His method of exercise is becoming known to the natives and yesterday several summoned sufficient courage to address the chief executive, in each case receiving a hearty handshake. The president gave little attention to public business after disposing of his mail, which was quite heavy. He has many of the daily newspapers from all sections of the country sent to him, and these he reads assiduously, devoting several hours to them. Thus, he passes the time. No plans are made in advance and his mood and fancy dictates how he shall find amusement, exercise and rest.

The lecture venture of Mrs. George  
since she was acquitted of the murder  
of Saxton has not proved a popular  
pastime for her and it ought not. It  
would be more fitting for her to live in  
seclusion for a few years at least.

The Democratic Editorial Association  
meets at Madison next week and the  
citizens are offering inducements for  
the editorial brethren to "spread them-  
selves" when they get home. For the  
best "write up" of Madison they offer  
\$50, for the second best \$30 and for  
third best \$20.

It is reported that James E. Mur-  
dock of Lafayette, will manage the  
Democratic party of Indiana next year.  
He is president of a national bank,  
promoter of large Wall street interests,  
manager of one of the largest trusts in  
the State, the natural gas syndicate,  
and a very rich man. He is a fine type  
of the "plutocrat" denounced by Bryan  
every day; but he is a strong man and  
a stronger Democrat.—Salem Leader.

### Officers in the City.

Last evening the eleven-year-old son  
of William Rumbley was sent to Frank  
Adams' store to buy some eggs. He  
made the purchase and started home,  
but while on his way he was stopped  
by two negroes and relieved of the  
eggs.

### Odd Fellows Make a Sale.

I. O. O. F. have sold the Williams prop-  
erty on Walnut street which they own-  
ed, to Mrs. Perry A. Jones for \$2,400.

will take place at 2 o'clock tomorrow

church, of which she was a consistent  
member.

A pleasant social was given last even-  
ing at the home of Miss Stella Riehl on  
High street. Parties were present  
from North Vernon and Columbus.  
Games and music were indulged in.  
Refreshments of the best were served.

A heavy rain accompanied by high-  
ning and heavy peals of thunder pre-  
vailed here for four hours this forenoon.  
The rainfall was nearly one and a quar-  
ter inches. Farmers will be retarded  
with their work.

James and William Stratton were  
called to Bedford, Ky., this forenoon  
by the death of their brother, Joseph  
Stratton, who died Thursday, aged 56  
years. Another brother died in March,  
leaving only these two members of the  
family living.

## LETTER TO MRS. PINKHAM NO. 46,970

"I had female com-  
plaints so bad that it  
caused me to have  
hysterical fits; have had  
as many as nine in one  
day.

"Five bottles of  
Lydia E. Pinkham's  
Vegetable Compound  
cured me and it has  
been a year since I had  
an attack.

Mrs. Edna Jackson,  
Pearl, La.

If Mrs. Pinkham's Compound will cure  
such severe cases as this surely it  
must be a great medicine—is there  
any sufferer foolish enough not to  
give it a trial?

### Plans Probably Ready.

The consulting engineer employed to  
prepare plans and specifications for an  
electric light plant for Seymour will ar-  
rive this evening and submit his work  
to the special committee. W. B.  
Hassan, clerk of Jeffersonville, is here  
and will remain to see the engineer as  
he is just starting out on a trip to gather  
information on electric lighting for  
Jeffersonville. The city of Jefferson-  
ville has been considering a plant for  
the past few weeks, and the council  
there now has before it the same propo-  
sition that H. M. Geiger made to  
Seymour. In fact it seems that he  
used the same copy there that he used  
here for "Seymour" was read two or  
three times where it should have been  
Jeffersonville.

### Employment of Boys and Girls.

Under the new law no boy under 14  
or girl under 18 can be compelled to  
work more than ten hours on Saturday,  
and no child can be hired under 14 to  
work in any manufacturing or mercan-  
tile establishment. Seats must be pro-  
vided for female clerks to use if they  
choose when not engaged with custo-  
mers, and an hour for noon lunch must  
be given unless the State factory in-  
spector allows a change in special cases.

### Expensive Economy.

A farmer in a neighboring county  
whose real estate is valued at \$1,800  
and who could not afford to take his  
county paper, failed to file an affidavit  
of an eight hundred dollar mortgage o-  
his farm with the auditor. He hadn't  
heard of it till Tuesday afternoon, when  
he went to town to get his 14 year old  
boy out of a scrape for going fishing  
that morning. This fitly illustrates the  
way some men practice economy.—Ex-  
press.

### Memorial Day Orator.

Dr. J. H. Ford, of New Albany, has  
been secured to deliver the Memorial  
day address here, Tuesday, May 30.  
He is an old soldier and an able  
speaker.

### Drink, Grain, O.

After you have concluded that you  
ought not to drink (beer) it is not a  
medicine but doctors order it, because  
it is healthful, invigorating and appe-  
tizing. It is made from pure grains  
and has that rich seal brown color and  
taste like the finest grades of coffee  
and costs about 1/4 as much.  
Children like it and thrive on it be-  
cause it is a genuine food drink con-  
taining nothing but nourishment. Ask  
your grocer for Grain O, the new food  
drink. 15 and 25c.

### The Elk Social.

The Elk Lodge held their first social session for the ladies last night and the event was a most enjoyable one. The attendance was confined strictly to members of the order and their ladies, about sixty persons in all.

The beautiful lodge hall and club room were tastefully decorated with smilax, palms and lilies. The music was in charge of Will Morrison, pianist, assisted by the Barkman Mandolin club. The program was excellently rendered and consisted of vocal and instrumental selections and short addresses. Senator Jos. H. Shea responded very happily to the eleven o'clock toast, an hour that is of much significance to every Elk. Dancing numbers were interspersed throughout the program. The refreshments, consisting of ices, fruits, bon bons, hot coffee and sandwiches were served in the club rooms.

Dr. Miles' Nervine Restores Health.

UNCLE EZEKIEL OBEAR, assessor and tax collector, Beverly, Mass., who has passed the 80th life mile stone, says: "Dr. Miles' Restorative Nervine has done a great deal of good. I suffered for years from sleeplessness and nervous heart trouble. Would feel weary and tired up in the morning. I had no ambition and my work seemed a burden. A friend recommended Dr. Miles' Nervine, and I purchased a bottle under protest as I had tried so many remedies unsuccessfully. I thought it no use. But it gave me restful sleep, a good appetite and restored me to energetic health. It is a grand good medicine, and I will gladly write anyone inquiring, full particulars of my satisfactory experience."

## ENROUTE TO MANILA

Five Transports Now on the High Seas With Troops For Otis.

## THREE SPANISH CRUISERS

Captured at the Battle of Manila Now at Hong-Kong Reported in a Good Condition—Indianapolis Designated as a Reserve City by the Controller of the Treasury.

Washington, May 12.—There are five transports now on the Pacific enroute to Manila with reinforcements and stores for General Otis' army.

The Warren left San Francisco, April 20, and is due at Manila within the next 10 days. She carried eight batteries of the Sixth artillery, including 80 officers and 912 men, and also 240 recruits.

The Newport also sailed from San Francisco on the 20th ult. and is due at Manila in a few days. She stopped at Honolulu. She carried two light batteries, including eight officers and 220 men, and also 15 officers and 216 men of the marine corps.

The Morgan City left San Francisco April 25 with 611 enlisted men and recruits.

The Senator and the Ohio left San Francisco April 28, carrying between them the entire Thirtieth regiment numbering 30 officers and 1,329 men. All these vessels will stop at Honolulu enroute and probably will occupy 30 days in making the trip, that being the average time.

The only vessel yet to sail, for which complete arrangements have been made, is the Sherman. She is booked to carry the Sixth infantry and to start from San Francisco on the 22nd inst. The transports Grant and Sheridan will aid in carrying troops between San Francisco and Manila. The Grant, which has been detained at San Francisco in quarantine, will follow the Sherman about a week later, carrying the Sixteenth regiment of infantry.

## SPANISH CRUISERS

Captured at Manila in Fairly Good Condition.

Washington, May 12.—Admiral Highborn, chief of the bureau of construction, has received a report from Naval Constructor Capps at Hong-Kong regarding the three captured Spanish cruisers, Isla de Cuba, Isla de Luzon and Don Juan de Austria, in which Constructor Capps states that careful examination has shown the vessels are in considerably better condition than was expected. The forecastle decks of the Cuba and Luzon are found to be in very fair condition. They are of oakwood and will not have to be renewed, re-caulking being sufficient to put them in first-class condition. The hull machinery and outfit, Mr. Capps reports, are also found to be in good state, and may not need renewal. The boilers and engines of all the vessels are in fairly good condition.

## Fairbanks Calls on Hay.

Washington, May 12.—Senator Fairbanks of Indiana, was at the state department yesterday and saw Secretary Hay for a short time regarding matters pertaining to the American-Anglo commission, of which he is chairman. He also called upon Mr. Kasson, a member of the commission. Senator Fairbanks will leave Seattle for Alaska about June 10 for the purpose of making personal investigation of the Alaskan boundary, which is one of the main questions of difference between the United States and Great Britain.

## Wireless Telegraphy.

Washington, May 12.—General Greeley has made an authoritative statement as to the progress making in the development of wireless telegraphy under the auspices of the United States signal

## THAT VITAL SPOT.

The prize fighter always aims for the vital spot in the body. When he reaches it, as Fitzsimmons did with Corbett, the other man is knocked out. To protect the vital points of the body is the first care of the fighter.

The stomach is the vital spot to be protected against

the deadly blows of that universal pugilist called consumption. If it is permitted to get out of order—if the blood becomes full of impurities, if the system is allowed to run down—it won't be long until consumption will find the "opening" and deal its fatal blow. Protect yourself with Dr. Pierce's Golden Medical Discovery, the non-alcoholic remedy for the stomach, blood and nerves. Take it for lingering coughs, colds, bronchitis, weak and bleeding lungs. It has cured so many thousands that it will also cure you. Don't under any circumstances permit the medicine dealer to induce you to take some other remedy. There are many substitutes on the market, but none of them possess the power to cure like "Golden Medical Discovery."

"After using about five bottles of Dr. Pierce's Golden Medical Discovery my boy seems to be all right," writes Mr. J. W. Price, of Ozark, Missouri, Co., Mo. "He was very bad when I commenced to give him the 'Golden Medical Discovery.' The doctors claimed he had consumption and we doctored him until he was fast walking. It has been ten months since he stopped taking your medicine and he is still in good health."

To knock out constipation and biliousness, take Dr. Pierce's Pleasant Pellets.

## MAY BE NEGATED

Gen. Wood's Civil Marriage Decree Not Satisfactory to Gen. Brooke.

## GENERAL GOMEZ'S STAFF

Instructed by Their Superior to Return to Their Homes, Become Angry and Accuse Him of Deserting Them—Two Havana Papers That Seem Determined to Cause Trouble.

Havana, May 12.—The civil marriage decree recently issued in the province of Santiago differs from the decree on the same subject in course of preparation at headquarters here. The military governor of Santiago, General Wood, acted without consultation with the governor general, and his decree was first heard of here through the local newspapers. Probably it will not be annulled specifically, but it will be rendered nugatory by a general paragraph in General Brooke's decree covering the entire island.

A letter has been addressed to General Wood, pointing out to him the undesirability of an attempt to handle the affairs of one province without regard to similar conditions in other provinces, and alleging the necessity of a uniform system in order to make the people homogeneous.

The decision of General Gomez to abandon Quinta de Los Molinos, the old summer residence of the captain general where he has been living, and to take a house in the city, or to live with friends here, was announced to the members of his staff yesterday who were instructed to repair to their homes. The order aroused considerable resentment among them, all accusing Gomez of deserting them, and declaring that they have neither homes, work or money. The disagreement is serious, especially as the anti-Gomez papers continue to attack the settlement of the amount of the Cuban soldiers are to receive.

La Discusion and El Reconcentrado seem determined to cause trouble. The former, in a bitter editorial yesterday, declared that the payment of \$75 for an exchange of arms is merely an attempt to place the Cubans in the power of the Americans. The article, which is believed to be inspired by Manuel Sanguily, says: "These traitors have caused all the complications which have placed our country in the existing conditions, conditions that, if continued longer, will cause ferocious and bloody strife between Cubans and Americans."

The inspection by the board appointed to investigate the minimum of clothing that will answer for troops in this province took place yesterday, the first endeavor being to ascertain the amount of suitable apparel now on hand. It is not believed that for the present it is practicable to alter the existing Khaki.

The commissioners of the Fifth army corps did not meet yesterday to arrange to begin the payment of the Cuban troops, as General Botas has been requested to act in his stead.

## General Ernest's Opinion.

New York, May 12.—General Ernest, who arrived from Cuba on the Havana, said in his opinion there was no man in Cuba who he thought qualified to be elected president. He said he did not think Gomez would ever fill that position. "Gomez is a good man, but he has many enemies. Then, again, I do not believe he is qualified to hold that office. Should the sentiment for annexation increase I believe Gomez would cause trouble. He keeps crying as long as they dangle 'Cuba Libre' before him."

## THE NASHVILLE

Excitement at St. Louis Over the Visit of a Warship.

St. Louis, May 12.—A vast concourse of people filed the levee all yesterday, eagerly awaiting an opportunity to be ferried out to the gunboat Nashville, anchored in midstream. The privilege of transportation was granted to but one ferry company in order that the Nashville should not be overcrowded. This company's small boat was jammed. Suddenly a wharf was pushed off the wharf into the river. Instantly a policeman followed and, as the water was shallow, the child was soon rescued. The excitement, however, caused a panic and several men were shoved over the edge of the wharf and waded out. At least 25 women fainted and were in danger of being trampled, but the police succeeded in carrying every one out of the jam. Nobody was injured. Several children fell into the water during the day, but were rescued before they got beyond their depth.

## Will Be Deported.

San Francisco, May 12.—The 12 Filipinos who arrived here on the City of Peking a week ago have been ordered deported by the special board of inquiry appointed by Immigration Commissioner North. The party consists of 10 adults and two children. Unless an appeal is taken they will probably return home on the next steamer bound for the Orient.

## Dropped Mayor Jones.

Toledo, May 12.—The Lucas county delegates to the Republican state convention have dropped Mayor Jones and practically united on Noah H. Swayne of this city as a candidate for governor. All that remains is Mr. Swayne's consent, which, it is understood, will be given. Mr. Swayne is an ardent supporter of President McKinley.

## MARINE HOSPITAL

Government Institution For Cure of Consumption to Be Opened.

Washington, May 12.—The Marine hospital recently established at Fort Stanton, N. M., under government auspices, and in which it is proposed to make a specialty of the treatment of consumption, will shortly be opened for the reception of patients. The buildings have been placed in thorough repair, and every comfort provided for those afflicted with tuberculosis. The hospital will be furnished with modern antiseptic furniture, and supplied with all modern instruments and apparatus for the scientific treatment of those suffering with the disease. The reservation where the hospital is situated contains over 10,000 acres of high plateau land, and was set apart for the use of the Marine hospital by an executive order, dated April 1, 1880. The climate is an ideal one for the treatment of all lung and throat troubles, being of moderate temperature, and at an altitude that precludes sudden changes or dampness. Outdoor exercises will be the chief reliance of the physicians in building up the constitutions of the patients. Only those being treated in the various marine hospitals will at first be admitted to the institution. These include the merchant marine, as well as the enlisted men of the army, navy and marine corps. If the plan proves successful, all employees of the government suffering from consumption will be given the benefit of treatment in the hospital. It is not proposed to throw the doors of the institution open to the general public until the hospital is thoroughly established and all government employees provided for.

## WINNIE DAVIS

Tribute to Her Memory by the Confederate Veterans.

Charleston, May 12.—The memorial to Winnie Davis was one of the features of yesterday's session of the Confederate Veterans. Colonel Bennett H. Young of Louisville paid a tribute to the memory of the "Daughter of the Confederacy."

A resolution was unanimously adopted extending the thanks of every veteran to the people of the north who so tenderly administered to Winnie Davis at the time of her illness at Narragansett Pier.

The Jefferson Davis monument committee submitted the following report: "Resolved, That it is the earnest and unanimous wish of the United Confederate Veterans that the committee shall undertake the patriotic task of building the monument to President Jefferson Davis at Richmond, feeling confident as we do that under their direction the work will soon be accomplished and we shall have in the capital city of the confederacy a memorial worthy alike of the president and of the people over whom he ruled with such fidelity and wisdom."

## SHELL FIRED

Forty-Four Years Ago at Sebastopol Explodes With Fatal Results.

Vienna, May 12.—An extraordinary accident is reported to have just occurred at Sebastopol, where dredges are at work deepening the harbor. One of the dredges raised from the bottom of the port an unexploded shell, which, on reaching the dredge, burst, destroying the machinery and instantly killing four men. The shell was one of those fired by the British fleet during the siege of Sebastopol in 1855, and the discovery that there are a large number of these unexploded English and French shells lying in the mud of the port of Sebastopol has caused, for the present, a suspension of all dredging operations there.

## Mummy of Thothmes I.

## PURE FOOD

Experts Testify Before the Senate Investigating Committee.

Chicago, May 12.—Before the senate committee four prominent witnesses testified yesterday as to the effect on the human stomach from the use of antiseptics and "embalming fluids" and preservatives in foods and drink. In general they were agreed that the substances used were deleterious and that in many cases they were poisonous. Either prohibit their use, they declared, or compel the manufacturers and user to brand them plainly and explicitly, so that the consumer may know exactly what is being eaten. These witnesses were Henry G. Piffard, a New York physician; Abbott O. Prescott, dean of the school of pharmacy in the University of Michigan and professor of hygienic chemistry; Victor C. Vaughn, dean of the medical faculty at Ann Arbor and professor of hygiene, and H. C. Adams, dairy and food commissioner in Wisconsin.

Dr. Piffard made specific references to foods and drugs which are being generally adulterated, sometimes with dangerous results to the consumer. Bromo seltzer, he said, is one of these. Properly, it should consist of bromide of potassium or some other substance of that kind and the ingredients of seltzer water. "But it appears," he continued, "that acetanilide is being extensively used instead. In the new famous Adams case the experts' examination of the bromo showed the presence, in addition to the acute poison, of acetanilide, so that I believe its use is widespread."

Beer is soon to be put to a severe test by the committee. A scientific analysis of all brands offered in the open market will be made by the government experts at Washington.

The committee has purchased in Chicago many samples of butter, pepper, coffee, jellies and canned goods for analytical examination in Washington. The samples will be freed of their labels and the experts will make their investigations without knowledge of the brand or source of the articles.

## CHIEF EXECUTIVE

Giving Little Attention to Public Business at Hot Springs.

Hot Springs, Va., May 12.—President McKinley ventured from his apartments and the porches on each side of them only twice yesterday, except for his bath. Each time he went for a short walk with Secretary Gage about the grounds. His method of exercise is becoming known to the natives and yesterday several summoned sufficient courage to address the chief executive, in each case receiving a hearty handshake. The president gave little attention to public business after disposing of his mail, which was quite heavy. He has many of the daily newspapers from all sections of the country sent to him, and these he reads assiduously, devoting several hours to them. Thus, he passes the time. No plans are made in advance and his mood and fancy dictates how he shall find amusement, exercise and rest.

The lecture venture of Mrs. George  
since she was acquitted of the murder  
of Saxton has not proved a popular  
pastime for her and it ought not. It  
would be more fitting for her to live in  
seclusion for a few years at least.

The Democratic Editorial Association  
meets at Madison next week and the  
citizens are offering inducements for  
the editorial brethren to "spread them-  
selves" when they get home. For the  
best "write up" of Madison they offer  
\$50, for the second best \$30 and for  
third best \$20.

It is reported that James E. Mur-  
dock of Lafayette, will manage the  
Democratic party of Indiana next year.  
He is president of a national bank,  
promoter of large Wall street interests,  
manager of one of the largest trusts in  
the state, the natural gas syndicate,  
and a very rich man. He is a fine type  
of the "plutocrat" denounced by Bryan  
every day; but he is a strong man and  
a stronger Democrat.—Salem Leader.

Officers in the City.

H. H. Roseman, general passenger  
agent, Superintendent J. W. Thomp-  
son and vice president James Walsh, of

and the surveys being made.

ed, to Mrs. Perry A. Jones for \$2,400.

ning at the home of Miss Stella Riehl on  
High street. Parties were present

A heavy rain accompanied by light-  
ning and heavy peals of thunder pre-  
vailed here for four hours this forenoon.  
The rainfall was nearly one and a quar-  
ter inches. Farmers will be retarded  
with their work.

[LETTER TO MRS. PINKHAM NO. 46,970]

"I had female com-  
plaints so bad that it  
caused me to have  
hysterical fits; have had  
as many as nine in one  
day.

"Five bottles of  
Lydia E. Pinkham's  
Vegetable Compound  
cured me and it has  
been a year since I had  
an attack.

Mrs. Edna Jackson,  
Pearl, La.

If Mrs. Pinkham's Compound will cure  
such severe cases as this surely it  
must be a great medicine—is there  
any sufferer foolish enough not to  
give it a trial?

Plans Probably Ready.

The consulting engineer employed to  
prepare plans and specifications for an  
electric light plant for Seymour will ar-  
rive this evening and submit his work  
to the special committee. W. B.  
Hassan, clerk of Jeffersonville, is here  
and will remain to see the engineer as  
he is just starting out on a trip to gather  
information on electric lighting for  
Jeffersonville. The city of Jefferson-  
ville has been considering a plant for  
the past few weeks, and the council  
there now has before it the same prop-  
osition that H. M. Geiger made to  
Seymour. In fact it seems that he  
used the same copy there that he used  
here for "Seymour" was read two or  
three times where it should have been  
Jeffersonville.

Employment of Boys and Girls.

Under the new law no boy under 14  
or girl under 18 can be compelled to  
work more than ten hours on Saturday,  
and no child can be hired under 14 to  
work in any manufacturing or mercan-  
tile establishment. Seats must be pro-  
vided for female clerks to use if they  
choose when not engaged with custo-  
mers, and an hour for noon lunch must  
be given unless the State factory in-  
spector allows a change in special cases.

Expensive Economy.

A farmer in a neighboring county  
whose real estate is valued at \$1,800  
and who could not afford to take his  
county paper, failed to file an affidavit  
of an eight hundred dollar mortgage on  
his farm with the auditor. He hadn't  
heard of it till Tuesday afternoon, when  
he went to town to get his 14 year old  
boy out of a scrape for going fishing  
that morning. This fully illustrates the  
way some men practice economy.—Ex.

Memorial Day Orator.

Dr. J. H. Ford, of New Albany, has  
been secured to deliver the Memorial  
day address here, Tuesday, May 30.  
He is an old soldier and an able  
speaker.

Drink Grain-O.

After you have concluded that you  
ought not to drink coffee, it is not a  
medicine but doctors order it, because  
it is healthful, invigorating and appe-  
tizing. It is made from pure grains  
and has that rich seal brown color and  
taste like the finest grades of coffee  
and costs about 1/4 as much.  
Children like it and thrive on it be-  
cause it is a genuine food drink con-  
taining nothing but nourishment. Ask  
your grocer for Grain-O, the new food  
drink. 15 and 25c.

## The Elk Social.

The Elk Lodge held their first social  
session for the ladies last night and the  
event was a most enjoyable one. The  
attendance was confined strictly to  
members of the order and their ladies,  
about sixty persons in all.

The beautiful lodge hall and club  
room were tastefully decorated with  
smiles, palms and lilies. The music  
was in charge of Will Morrison, pianist,  
assisted by the Barkman Mandolin  
club. The program was excellently  
rendered and consisted of vocal and in-  
strumental selections and short ad-  
dresses. Senator Jos. H. Shea re-  
sponded very happily to the eleven  
o'clock toast, an hour that is of much  
significance to every Elk. Dancing  
numbers were interspersed throughout  
the program. The refreshments, con-  
sisting of ices, fruits, bon bons, hot cof-  
fee and sandwiches were served in the  
club rooms.

The Elk lodge, though young in this  
city is rapidly gaining in substantial  
membership. One of the cardinal  
principles of the order is to disseminate  
sunshine and good fellowship where-  
ever they go and this they do.

the California Fig Syrup Co.
